Women Home-Based Business Marketplace

FUNCTIONAL & NON-FUNCTIONAL REQUIREMENTS SPECIFICATION

1. Functional Requirements

Functional requirements describe the actions and services the system must provide to its users.

ID	FUNCTIONAL REQUIREMENTS
FR-01	**Account Registration:** The system shall allow women to create an account by providing their name, phone number, and password.
FR-02	**Login and Logout:** The system shall allow registered users to log in and log out securely.
FR-03	**Product Listings:** The system shall allow sellers to create, edit, and delete product listings.
FR-04	**Browse Products:** The system shall allow customers to browse products and view product details and prices.
FR-05	**Place Orders:** The system shall allow customers to place orders for available products.
FR-06	**Manage Orders:** The system shall allow sellers to view and manage incoming orders.
FR-07	**Track Order Status:** The system shall allow customers to view the status of their orders.
FR-08	**Payments:** The system shall allow customers to select an available payment method and complete payment.
FR-09	**Product Availability:** The system shall allow sellers to update product availability and stock quantities.
FR-10	**Delivery Coordination:** The system shall support delivery coordination between sellers and customers.

2. Non-Functional Requirements

Non-functional requirements describe the quality standards and constraints the system should meet.

ID	CATEGORY	NON-FUNCTIONAL REQUIREMENTS
NFR-01	**Performance**	The system shall load pages within 3 seconds under normal operating conditions.
NFR-02	**Security**	Passwords shall be stored using secure password hashing and shall never be stored as plain text.
NFR-03	**Compatibility and Responsiveness**	The system shall be accessible through mobile browsers and display correctly on mobile devices.
NFR-04	**Availability**	The system shall be available 24 hours a day, 7 days a week.
NFR-05	**Language Support**	The system interface shall support both Arabic and English.
NFR-06	**Accessibility**	The interface shall meet WCAG 2.1 Level AA color contrast requirements, and all forms shall be operable using a keyboard alone.
